

Vintage bonus (rule 6.0.2)

The vintage bonus allows contestants to choose older prototype subjects without being at a disadvantage. **The date of the first flight as published in specialist publications or a reliable online encyclopedia determines the vintage (proof required by the contestant).** The most points are awarded to a pre 1940 model (50 points) and for every year the date of first flight is later, 2 points less is awarded, so we end up at 2 points for a 1964 first flight and zero points for any year thereafter.

If you have any doubts to which date of first flight is applicable to your subject, please contact the IJMC Board (e-mail addresses available on <http://www.ijmc.net>) for confirmation. This avoids discussions at the competition.

Below is the complete list per year of first flight.

| | |
|-------------|-----------|
| before 1940 | 50 points |
| 1940 | 50 points |
| 1941 | 48 points |
| 1942 | 46 points |
| 1943 | 44 points |
| 1944 | 42 points |
| 1945 | 40 points |
| 1946 | 38 points |
| 1947 | 36 points |
| 1948 | 34 points |
| 1949 | 32 points |
| 1950 | 30 points |
| 1951 | 28 points |
| 1952 | 26 points |
| 1953 | 24 points |
| 1954 | 22 points |
| 1955 | 20 points |
| 1956 | 18 points |
| 1957 | 16 points |
| 1958 | 14 points |
| 1959 | 12 points |
| 1960 | 10 points |
| 1961 | 8 points |
| 1962 | 6 points |
| 1963 | 4 points |
| 1964 | 2 points |
| 1965 | 0 points |
| after 1965 | 0 points |
